

CSO Group's in-house Governance Risk and Compliance (GRC) practice provides highly skilled guidance and support on driving strategies to help manage cyber risk; enabling your organisation to proactively meet security and compliance objectives.

Having a greater understanding of the risks your organisation faces allows for the implementation of preventative and protective solutions that not only target the risk causes but lead to a more efficient cyber and operational posture; and if governed correctly, a system that can be continuously audited and measured against.

The CSO Group team are at the forefront of political and regulatory compliance requirements with real world experience as both advisors and decision makers.

Our team are pragmatic in their approach, ensuring the right balance between meeting regulatory requirements and achieving your wider business objectives.

COMPLIANCE FRAMEWORKS

We work closely with organisations to provide guidance and advice relating to governing and assuring successful cyber security and risk management programs and frameworks, including:

- ISO 27001
- APRA CPS 231, 232 and 234
- DESE Scheme
- NIST Framework
- ACSC Essential Eight

**AT CSO GROUP WE
DEMYSTIFY & SIMPLIFY
CYBER RISK, HELPING YOUR
ORGANISATION BALANCE SECURITY
& COMPLIANCE REQUIREMENTS
WITH BUSINESS OBJECTIVES.**

WHY CSO GROUP FOR GRC?

With a broad understanding of business and industry requirements, CSO Group consultants act as a trusted advisor and consultant to help organisations simplify the journey to compliance and acceptable risk posture.

Leveraging our GRC service will enable your organisation to respond to Information Security events related to confidentiality, integrity and availability of critical information with clarity and ease.

Further, our GRC experts will work with you to drive a GRC solution that meets your business objectives and delivers the following benefits:

- IMPROVED DECISION MAKING

- COMPREHENSIVE ANALYSIS OF RISK

- REDUCED OPERATIONAL COSTS

- REDUCED DUPLICATION

- IMPROVED EFFICIENCY AND INFORMATION ACCESS
